Bachelor's of Computer Application

(2020-2021) JJIHS HighSchool-Godhra
Commerce 12th

Projects

CryptoCurrency Tracker

- Crypto Tracker is a ReactJS app that uses the CoinGecko API to display real-time cryptocurrency data. It features React Router for smooth navigation and interactive graphs to visualize market trends, providing a user-friendly way to track prices and market details.

The Tilted Tripod's Portfolio

- The Tilted Tripod portfolio website, built with HTML, Tailwind CSS, and JavaScript, features a modern, responsive design with smooth interactivity, showcasing the company's innovative work.

Full Stack TodoList

- This Todo List app enables CRUD functionality with React, Vite.js, and Appwrite. Users can add, view, update, and delete tasks, with data managed by Appwrite's database. The app offers a fast, interactive experience for managing tasks efficiently.
